ANALYSIS

This is the sixth review of the subject Off-Premise Sign. The subject billboard is legal non-conforming with respect to minimum distance separation requirements. The subject Off-Premise Sign does have a building permit, which was issued on 08/21/09, but has not received a final inspection. Staff conducted a site inspection and found the sign and support structure in good condition and being properly maintained. A condition of approval has been added, which requires the applicant to obtain a final building inspection within 30 days of final action; approval of this request is recommended.

FINDINGS

The subject Off-Premise Sign is located within an M (Industrial) district. Staff finds that there is no adverse impact regarding the continued use of the billboard, as there have been no significant changes in development or land use in the surrounding area. Also, the billboard is in good condition, and the applicant is working towards obtaining final building inspections; therefore, staff is recommending approval, subject to a three-year review.

PLANNING COMMISSION ACTION

The applicant agreed to all conditions at the Planning Commission Meeting.
